| **Areas to Improve (For each member)** | Include emergency medical condition flags in patient demographics; support multi-language patient intake forms. | Add notification to ordering doctor when lab results are uploaded; support consultant doctor delegation for report verification. | Allow booking appointment slots for diagnostic lab sampling; implement patient arrival check-in status. | Explore shared reagent tracking between pharmacy and pathology lab; add batch number search filters. | Delegate deployment scripts earlier in the project lifecycle; implement automated receipt email dispatch upon payment completion. |
| **Comments** | Fantastic collaboration. Dila provided structured patient records that allowed laboratory tests to associate with patients smoothly and reliably. | Great Scrum Master. Kavinda kept standups focused, ensured clear communication across all members, and delivered doctor profiles with great UI. | Very supportive teammate. Chanul ensured appointment records linked properly with doctor consultations and lab investigation workflows. | Very reliable and focused. Harshika delivered a robust pharmacy inventory system and worked closely during cross-module testing sessions. | Inspiring team leader. Kesaru orchestrated the entire architecture, hosted the system live on Oracle Cloud, and integrated lab billing into invoices effortlessly. |

## Overall Team Evaluation

How well did your group function as a team overall? (Excellent / Good / Fair / Poor)

**Evaluation: Excellent —** Working with this group has been a truly positive experience. The project was executed with clear timelines, mutual technical assistance, and great team spirit across all sprints.

## Additional Comments

If you have any additional comments regarding a specific member, you may include them in this section. (This is optional.)

All six group members contributed equally and supported each other at every step. Integration between laboratory orders, doctor requests, and billing invoices was completed smoothly without any blockers.
