Reliability and Responsibility	**Excellent**	**Excellent**	**Excellent**	**Excellent**	**Excellent**
Areas to Improve (For each member)	Could implement automated schedule overlap validation for doctor leave periods; explore caching for high-frequency specialty lookups.	Consider automated SMS appointment notifications for registered patients; add batch appointment rescheduling for doctor leave.	Could introduce automated drug interaction check popups during prescription issuance; refine inventory CSV export format.	Could delegate initial cloud setup tasks earlier; explore automated refunds and credit note processing workflows.	Could add visual trend graphs for historical patient lab results; include digital signatures for lab report validation.
Comments	Exceptional leadership as Scrum Master. Kavinda ensured doctor rostering integrated smoothly with patient intake and handled sprint coordination reliably.	Outstanding work on appointment management and concurrency guards. Coordinated closely with the patient module to ensure zero scheduling conflicts.	Reliable and focused developer. Handled drug dispensing and inventory tracking with great attention to detail and integrated well with patient records.	Visionary team leader. Orchestrated cloud deployment, PayHere gateway integration, and multi-department billing aggregation with tremendous dedication.	Delivered lab investigations and diagnostic tracking efficiently. Seamlessly linked lab test orders with patient medical histories.

Overall Team Evaluation

How well did your group function as a team overall? (Excellent / Good / Fair / Poor)

Evaluation: Excellent — As Product Owner, I am delighted with the team's cohesion and delivery. Every sprint backlog item was accomplished on schedule with high quality, exceptional teamwork, and active communication across all channels.

Additional Comments

If you have any additional comments regarding a specific member, you may include them in this section. (This is optional.)

All six group members contributed equally and demonstrated exemplary commitment to their assigned modules. Mutual support, proactive code reviews, and shared ownership ensured complete, high-quality deliverables across the entire PulseOS hospital management platform.
